

# THE TEAM

**IVÁN CORONADO**  
Project Manager, Programmer.

The guy that spent most of their time researching, developing codebase, debugging, testing and, actually, making the guts of Draki Hero.

**CÉSAR ÁLVAREZ**  
Illustrator, Designer.

The responsible for the visual magic that you see on the game. Blame him for the engaging aesthetics, animations and interactions.

**MANUEL ORTEGA**  
Designer.

If everything looks neat and polish is thanks to him. He always hits the nail on the head when it comes to visual communication.

**CLARISA GUERRA**  
Composer, Writer.

Even small stories need great words. The narrative that will accompany you through this AR adventure came out of her head, including what you are reading right now: Hi!.
