## THE STORY

You have in your hands a mysterious Artifact from the future. Uoooh! When you turn it on, it shows a reality parallel to ours where a little monster named Draki lives. Get ready to play with it!

Grab one or several friends, and form two teams: Allies, who will hide Draki somewhere in the real world, and Explorers, whose mission will be to find the elusive Draki.

But beware: Time is running out! The Explorers will have only a minute to find Draki's hiding place. Luckily your artifact will give you hints to help you inspect the world and find our tricky little friend.

## FEATURES

### HAVE FUN TOGETHER

Team play for young children that encourages communication and problem solving.

### A STEP INTO THE FUTURE

Help children understand Augmented Reality, one of the most promising technologies of the 21st century.

### EASY GAME MECHANICS

Avoid frustration thanks to graphics and sound indicators that guide the experience; It's challenging while simple to understand.

### DISCOVER NEW SCENARIOS

Play wherever you want: at home or while enjoying the fresh air, the device works with any indoor or outdoor space.
